

INNOVATIVE
E-LEARNING FOR
THE DIGITAL ERA

ERA ACADEMY

Learning Management System for training courses

ERA Academy - Learning Management System by ERA allows for an efficient way of providing training materials and exercises to the partners who have purchased ERA systems. The e-learning courses are an easy-to-use tool to educate technical personnel from the start or refresh their knowledge.

It is based on:

- ILIAS open-source platform
- SCORM courses with saved progress

The interactive platform has a completely responsive design - i.e., it is optimized for computers, tablets or cell phones. This ensures that the courses are available anytime and anywhere for all personnel working with ERA systems.

KEY FEATURES:

- ✓ The courses pass on the needed knowledge in an interactive form
- ✓ Includes videos and tutorials
- ✓ Full 3D animations
- ✓ Interactive exercises such as:
 - Flashcards
 - Sorting activities
 - Multiple choices
 - Matching exercises
- ✓ Library of manuals and user guides

SQUID COURSE

The SQUID course includes several chapters, starting from an introduction, continuing to ADS-B technology and GNSS, ensuring that the operation principle is clear even for a beginner. SQUID components, installation, and configurations are described in detail with the help of interactive features, animations, and videos. After each chapter, the obtained knowledge is checked with a short quiz.

HOW TO ACCESS THE E-LEARNING COURSE:

When purchasing the e-learning course the customer will receive login details for their newly created ERA ACADEMY account. The purchased course will be accessible on the main page or in the repository after signing in. The client will have a limited time (according to the type of license) to take the whole course. The test should be passed at the end. After completing the test, the certificate is issued in the name stated in the profile. One account is dedicated to only one person.

BENEFITS:

- ✓ 24/7 access
- ✓ Interactive form of learning
- ✓ Suitable for technicians, operators, instructors
- ✓ Cost-effective
- ✓ Detailed videos about configuration
- ✓ ERA team's recommendations for settings
- ✓ Immediate certification
